Summary

I am a highly motivated student that strives for the best in my personal, work and academic life. I am dependable and timely in all aspects of my life. My work experience has given me the skills to learn how to interact with clients and co-workers to efficiently perform a task. My school work has given me experience in wet lab technique as well as a familiarity with computational programming languages such as R and java.

Education

University of Washington, Seattle WA

Class of 2025

B.S. Biochemistry

Minor in Data Science

GPA: 3.48

North Creek High School, Bothell, WA

Class of 2021

High School Diploma

GPA: 3.98

- Received AP Scholar Award with Honors

Relevant Coursework

Mathematics

- Calculus Series

Natural Sciences

- General Chemistry Series
- Organic Chemistry Series and Labs
- Intro Biology Series

Programming

- Informatics 201: Foundational Skills for Data Science
- Computer Science 142: Computer Programming I

Work Experience

Undergraduate Lab Assistant

Spring 2022- Present

Singh Lab, UW Microbiology Department, Seattle WA

- Designed and implemented a new organization system to track and maintain over 1,000 biological samples.
- Prepared numerous lab stocks such as plated media, liquid broths, and antibiotic samples.
- Trained in proper aseptic technique and autoclaving procedures.
- Calculated density and concentration in lab media recipes.

BioPath Intern

Fall 2020-Spring 2021

AGC Biologics, Seattle WA

- Conducted multiple lab procedures following GMP etiquette.
- Collaborated with other interns to verify data and testing methods.
- Created multiple Standard Operating Procedures for lab protocols.
- Familiar with basic biotechnology techniques and laboratory equipment such as UV spectrophotometry, ELISA assays, and gas/liquid chromatography.
